- **Frontend developement (Internship)** Remote
CodeClause *June 2023 - July 2023*
 - Major work was with CSS (Colour Scheme, Adjusting items).
 - Technologies used: Github, HTML, CSS, JavaScript,
- **Technical Content Writer (Freelance)** Remote
GeeksforGeeks *April 2023 - Present*
 - Major work was writing articles on suggested topics .
 - Technologies used: GFG tools
- **Technical Content Writer (Internship)** Remote
GeeksforGeeks *February 2023 - March 2023*
 - Major work was writing articles on suggested topics .
 - Technologies used: GFG tools
- **Subject Matter Expert** Remote
Chegg pvt. Inc. *November 2022 - Present*
 - * Major work was solving students problem

PROJECTS

- **Netflix clone:**
Developed a fully functional Netflix clone using HTML and CSS, showcasing strong front-end development skills and implemented a user-friendly interface with responsive design, ensuring a seamless viewing experience across various devices.
- **Amazon clone:**
Created an Amazon clone using HTML, CSS and Bootstrap. We have implemented responsive design principles for optimal viewing across devices. Demonstrates strong skills in front-end web development and user interface design.
- **Password Generator:**
I have developed a password generator using HTML, CSS, and JavaScript, which generates a random password each time it's used. This project showcases my proficiency in web development and demonstrates my ability to create functional and user-friendly applications.
